

Unparalleled Care Resources When You and Your Family Need it Most

For over 18 years, we've provided comprehensive care guidance and support for people with serious and complex illnesses.

Our **Serious & Complex Care Services** deliver access to the world's best medical resources, the creation and implementation of a personalised care plan, and comprehensive support. We provide you a multidisciplinary Personal Care Team, 24/7 clinical and logistical support, AI-powered medical literature research, and decision-making guidance so you and your family can focus all your energy on getting better.

We are independent of all health systems and health plans so that we can focus solely on you without bias. While we have relationships with the top experts, our allegiance is only to you.

We provide independent, expert guidance to source and secure the best care for you and your family

Every health problem is unique. Your dedicated PHM team thoroughly reviews your situation and advises on the best way to use our services to get the best care and outcomes for you and your family.

Proven Process Ensures You and Your Family the Best of Medicine

PHM's proprietary 4-step approach provides you and your family science-backed information to fully understand your condition, educate you on the latest treatments, and help you make informed decisions about your care.

1. Immersion

- Comprehensive intake with a licensed clinician
- Review medical records and health history
- Create a clinical summary

2. Diagnosis Refinement

- Confirm diagnosis using the latest testing technologies
- Access expert providers to identify treatment paths

3. Treatment Planning

- Identify the latest medical literature findings
- Educate and provide decision-support
- Develop a personalised care plan

4. Treatment Implementation

- Manage side-effects
- Support ongoing monitoring and testing
- Conduct contingency planning

Comprehensive Expert Resources for You and Your Family

When you face a serious and complex condition or a health dilemma that has defied diagnosis, you and your family need a trusted guide who can help you source, evaluate, and obtain the world's best care.

Dedicated Support from Your Personal Care Team

Your team collaborates with you, your families, and your physicians to confirm your diagnosis, understand your unique presentation, and provide decision support throughout your treatment.

- Advanced Practice Clinicians
- PhD Research Scientists
- Care Logistics Experts
- Medical Records Specialists

Identification of and Access to Top Medical Experts

We work closely with leading specialists to determine your personalised care plan. We identify and gain timely access to the physicians with the most experience and expertise in exactly your diagnosis and presentation.

- Proprietary Expert Physicians Database
- Rigorous 26-point Vetting Process

Custom Research and Education

We investigate and evaluate innovative technologies, including new drugs, devices, diagnostics, prognostics, and clinical trials.

- Access to Cutting-Edge Treatments
- Personalised Research and Education Reports
- Proprietary Databases of Diagnostics, Treatments, and Clinical Trials

Serious & Complex Care Services

How We've Helped Others

Debilitating Back Pain

A man in his 70's was enjoying retirement with his family when he started experiencing excruciating back pain. Meetings with five different healthcare experts failed to result in any diagnoses or treatment to alleviate his suffering.

Acute Liver Failure

A family approached PHM for support during a loved one's hospitalisation due to acute liver failure and brain bleed without a clear cause.

Diagnostic Dilemma

For five years, a 60-year-old woman experienced progressive pain, fatigue, sensory issues, weight gain, and reduced mental acuity. She had spent ₹4.5 crore (~\$500,000) on ineffective treatments by the time she came to PHM.

PHM Impact

Our client and his family met with one of our specialists who found the cause of his pain and came up with an action plan to address his complex symptoms. PHM secured one of the best back surgeons in Los Angeles to operate, and fast-tracked his surgery, expediting imaging, preliminary appointments and workups, and diagnostics.

PHM provided continuous support and updates during hospitalisation, facilitated a prompt hepatologist consultation post-discharge, ensured thorough preparation for the appointment, and attended the consultation to offer additional support and detailed discussions with the physician.

PHM did a comprehensive diagnostic review that uncovered symptoms of hyperparathyroidism. We engaged a specialist who confirmed this diagnosis, and expedited surgery for her.

Superior Outcome

Our client's surgery was successful, and he remains pain free. PHM continues to monitor, guide, and support his overall health and well-being as he enjoys his retirement with his family.

Our client's surgery was successful. The client and family are pleased to be "on a path back to a healthy life."

Our client experienced an immediate improvement in sensation and lost 20 lbs. of fibrous tissue after two weeks. After four weeks, her recovery was almost at 100%.

Serious & Complex Care Services

Hear from Our Clients

“

There are not enough words to express our gratitude to you. Every day, we say that if we did not have PHM, we could never do this. We have never gotten to experience something as amazing as what you do for us.

”

“

Private Health took me from shock, fear, and hopelessness to a sense of hope after the first meeting with my Personal Care Team. Private Health has helped every step of the way and now 2 years later I am fully living and loving my life.

”
